—My sister has been part of the YMCA community since she was 10 years old. Participating in Y programs has helped boost her confidence and given her knowledge of health and fitness. She is diagnosed with an intellectual delay but has been able to keep up in these amazing unified programs and make new friends.

Thanks to the Y's Community Support Campaign, we are able to have a family membership that has not only opened doors for my sister but also for my young son who has started a few programs. We are able to access the Y because of the financial aid given to us, and we wanted to say thank you to everyone who makes this possible."
